[Project No. 10821-005]

Pacific Gas and Company; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission or FERC) regulations, 18 CFR Part 380, the Office of Energy Projects has reviewed the application for a subsequent license for the Camp Far West Transmission Line Project, and has prepared an Environmental Assessment (EA) for the project. As proposed, the project would be located in Placer and Yuba Counties, California and would occupy 2.3 acres of tribal land managed by the U.S. Department of the Interior, Bureau of Indian Affairs (Auburn Off-Reservation Land Trust) and 10.9 acres managed by the U.S. Department of Defense (Beale Air Force Base).

The EA contains staff's analysis of the potential environmental impacts of the project and concludes that licensing the project, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

The Commission provides all interested persons with an opportunity to view and/or print the EA via the Internet through the Commission's Home Page (<http://www.ferc.gov/>) using the "eLibrary" link. Enter the docket number, excluding the last three digits in the docket number field, to access the document (e.g., P-10821). At this time, the Commission has suspended access to the Commission's Public Reference Room, due to the proclamation declaring a National Emergency concerning the Novel Coronavirus Disease (COVID-19), issued by the President on March 13, 2020. For assistance, contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll-free at (866) 208-3676, or for TTY, (202) 502-8659.
